I agree with Elyana – I think in its current form (.pdf version) it can be distributed.

I'm thinking we should add a disclaimer on the front page that identifies something like the following:

Any information presented in this PowerPoint is for demonstrative purposes only and represents information gathered from multiple sources, not exclusively from EPA. It is intended to identify information available as of the date presented, is not a final factual determination, and may be subject to change with additional information.

Thanks – Kim V.

In my opinion, the version of the PowerPoint in PDF format you presented today can be shared. I am not sure how we could claim it can't be shared given that we presented the slides in a public forum.

Thanks,

Elyana Sutin

Can we send this presentation to the following (in pdf version so no notes shown):

- UDAQ – Brock has asked for copy – would also be helpful for other folks working on the UB air issues, emission inventory etc.
- Ute Tribe Air Dept
- Operators at the meeting (specific request from EOG and a general request for group by LINN Energy)
